```
public class IfElse {  
    public static void main(String[] args) {  
        int a = 10;  
        int b = 20;  
        if (a == b || a <= 20) {  
            System.out.print("This is my conditional statement.");  
        } else {  
            System.out.print("Invalid Statement.");  
        }  
    }  
}
```

OUTPUT:

```
C:\Users\Vinith\OneDrive\Desktop\experiments java>java IfElse.java  
This is my conditional statement.
