```java
class Student
{
        String name;

        int id;

        public static void main(String args[])
        {
                Student a = new Student();

                System.out.println(a.id);

                System.out.println(a.name);
        }
}
```

OUTPUT:

```
C:\Users\Acer\Desktop\experiments java>java Class.java
0
null
```
